

# The Welser Profile

Last updated: 01.10.2020

## A Tradition of Progress

- Welser roll-forms high quality special profiles and complex profile modules from steel and non-ferrous metals
- Welser has been working with steel for 11 generations

## Innovation in steel

- More than 23,500 cross sections designed and produced
- 3 to 5 new cross-sections each day
- Processing of steel, stainless steel and non-ferrous metals
- Steel strip thickness 0,3 - 8,2 mm (0.011 to 0.323 inches) and strip width up to 1000 mm (39.37 inches)
- Over 90 high-performance roll-forming lines with more than 60 cold forming stages

## We speak your language

- International sales offices: CH/1975, DE/1976, SE/1978, NL/1986, FR/1987, IT/1988, ES/1990, GB/1993, PL/2003, TR/2012, RU/2013, USA/2017
- Competent partners in your vicinity

## The History of Welser Profile

- Family owned company since 1664: previously a forge
- Roll forming since 1960
- From 1980: continuous seam welded special section tubes
- From 2001 Production site in Bönen, Germany
- From 2018 Production plant Superior Roll Forming in Valley City (USA)

## Production area

- Total production area in Austria/Germany/USA: 587,000 m<sup>2</sup> (145 acres), built-up area: 246,000 m<sup>2</sup> (60 acres)

## Focus on personnel

- Welser currently employs more than 2,500 people worldwide
- More than 7% of the workforce are currently in training

## Custom-made Manufacture

- Roll-formed Profiles (sections) and tubes laser-welded, laser-cut, bent and combined as a system
- Punching and notching before, during or after the roll forming process
- Profile manufacturing to customers' individual requirements
- Ultra-modern downstream processing centres

## Certifications

- ISO 9001:2015 – Quality Management System
- ISO 45001:2018 – Health & Safety Management System
- ISO 14001:2015 – Environment Management System
- ISO 50001:2018 – Energy Management System
- IATF 16949:2016 – Quality Management System
- EN 1090-4:2018 – Technical requirements for cold-formed structural steel elements and cold-formed structures for roof, ceiling, floor and wall applications
- EN 15085-2:2020 – Railway applications - Welding of railway vehicles and components - Part 2: Requirements for welding manufacturer
