

The Welser Profile

Last updated: 01.01.2026

A Tradition of Progress

- Welser Profile roll-forms high quality special profiles and complex profile modules from steel and non-ferrous metals
- The Welser family has been working with steel for 11 generations

Innovation in steel

- More than 25,200 cross sections designed and produced
- Processing of steel, stainless steel and non-ferrous metals
- Steel strip thickness 0,3 - 8,2 mm (0.011 to 0.323 inches) and strip width up to 1000 mm (39.37 inches)
- More than 75 high-performance roll-forming lines with more than 60 cold forming stages

We speak your language

- International sales offices:
CH, SE, NL, FR, IT, ES, GB, PL, TR, RU

The History of Welser Profile

- Family-owned company since 1664: previously a forge in Ybbsitz
- Since 1960: Roll-formed Steel Profiles
- Since 1972: Manufacturing Site in Gresten
- Since 2001: Manufacturing Site in Bönen (Germany)
- Since 2018: Manufacturing Site in Valley City (USA)
- Since 2021: 2nd Manufacturing Plant in Valley City (USA)

Production area

- Total production area in Austria/Germany/USA:
705,000 m² (174 acres), built-up area: 263,000 m² (65 acres)

Focus on personnel

- Welser Profile currently employs more than 2,400 people worldwide
- Appr. 8% of the workforce are currently in training

Custom-made Manufacture

- Roll-formed Profiles (sections) and tubes laser-welded, laser-cut, bent and combined as a system
- Punching and notching before, during or after the roll forming process
- Profile manufacturing to customers' individual requirements
- Ultra-modern downstream processing centres

Certifications

- ISO 9001:2015 – Quality Management System
- ISO 45001:2018 – Health & Safety Management System
- ISO 14001:2015 – Environment Management System
- ISO 50001:2018 – Energy Management System
- IATF 16949:2016 – Quality Management System
- EN 1090-4:2018 – Technical requirements for cold-formed structural steel elements and cold-formed structures for roof, ceiling, floor and wall applications
- EN 15085-2:2020 – Railway applications - Welding of railway vehicles and components - Part 2: Requirements for welding manufacturer
- TISAX – Information Security in the Automotive Industry
